LET'S MEET SOME OF THE PEOPLE WHO HAVE HELPED OUT OVER THE YEARS TO MAKE THIS FILM A SUCCESS:

DESTINY SORIA

1. Introduce yourself. Give your model name, location, and age. My name is Destiny Soria, I'm local to San Antonio Tx at the moment, but I'll be moving to la in the summer and I'm 37 What are your hobbies? What are your accomplishments outside of modeling? Use this part to promote yourself. My hobbies included camping, hiking, traveling the world, and eating different kinds of food.
My first feature film is getting a lot of exposure and it's an 80s mock dark humor horror movie about Evil Rudolph!
2. What are your favorite films? Do you like horror films if so what are they? Do you like exploitation films, if so what are they?
Disturbing Behavior, Killer Klowns from outer space, Mandy I love very much. I love horror and it's my life. I love Freddy, his my daddy! And The Blob
Exploitation film would be Toxic Avengers and Mad Max

3. What are your favorite styles of shoots? dark and sexy like monster theme

4. What have been your themes you have photographed? voodoo girl and brujas photoshop some elements to them.

5. What is the film Girl Blood Sport about? Have you seen similar chickfight films? Chaos in a cage fighting females. I actually have never seen a film of girls fighting. Anime yes a lot of them.

6. A random stranger comes to you on the Internet and asks you to submit videos of yourself... and you did. At any time did you second guess this or feel awkward by this approach and if so why did you submit anyway? What drew your interest to this project? I would not do that period. Need evidence and more details on this project before I even do that. This is a weird question...Huh?

7. Do you have any pro-industry tips for anyone interested in modeling or acting? Never pay an agency or manager to be with them, You don't need to pay tons of money to go to classes, be careful with people and double check their background before working with them.

ALY ISSABBELL

Hey! I'm Aly Issabelle! I'm a multi internationally published photographer, model, and makeup artist based out of Cincinnati, Ohio! I'm 29 years old, and have been a model+photographer since 2012! Outside of that I love crafting and video games when I've got the time.
One of my favorite movies is Nightmare Before Christmas (as cliche as it sounds). I do have a love of horror films thanks to my mother, however. Classics like Halloween, It, and even lesser known films like A Haunting are favorites of mine. I don't generally watch exploitation films, though I have seen a few.

I have so many favorite styles! Fantasy and conceptual work are near and dear to my heart as both a model and photographer; but I will always love the darker and more gothic themes as well. I have way too many favorite shoots, but I think one of my top 5 definitely has to be the Ehlers Danlos Syndrome/chronic illness shoot I did with Wurmwood Photography.
From what I understand, it's about girls getting just a wee bit bloody. ;) I don't believe I've seen any similar films, however.

6. Initially, it was a bit strange. But, I've been working with Girl Blood Sport/Bad Girls Club Magazine for so many years that I'm happy to be a part of this project as well!

My number one tip is don't give up. You're gonna face more closed doors than open ones in this industry; but you've gotta stick around long enough to find the doors that lead to where you wanna go.

SKARLETT DEMISE

Hello and I hope you're doing well, my name is Skarlett Demise, I'm a model, actor, musicain/singer, artist, with a taste for dabbling in many other things. I'm 23 years old, born and raised in Albuquerque, New Mexico, USA.

Some of my hobbies include acrylic and watercolour painting, writing short and longer styled stories/screenplays, I also take part in writing songs and would really love to get back into the music industry. I used to perform live as a rhythm guitarist and vocalist for Prosthetic fate which was originated by Brandon Gonzalez.. without those guys I don't think I would have the background I do. We used to do local shows around Albuquerque.

Outside of music, I've been going to school for pre-medicine, sociology, criminology, with my current associates in liberal arts. I am CPR certified and have performed at Pope Joy as a flamenco dancer, Spanish guitarist and Cajon player. I used to do track and field and every now and then still partake in sprinting or yoga.
For My modeling I've been doing it as a hobby for maybe 4-5 years now and a career for around 2 years being paid for my work and published. I've probably been published in maybe 10-15 smaller national magazines including 2 badgirlsclub magazines!!! I'm also apart of the Stoner High Girls Modeling sorority, the Alb Magazine model sorority.
I finally have also started my own Mag cloud featuring my own personal magazines with one up for purchase, I have plans in the work for more boudoir, cosplay, fantasy magazines and posters.
As of last year (2020) my first suicide girl hopeful sets was released!!! I have 4 more to upload in the next couple of months.
I also love animals, I love caring for them and being around them, i advocate for animal rights, mental health and have overcome so many mental health and life challenges including homelessness, domestic violence and substance abuse in personal experiences as well as family. I'm well aware of life's challenges and that all of our flaws make us beautiful and the most important accomplishments I've made with my work is inspiring others to do what they dream and also to express themselves, to never give up and to love them for them, do what makes you happy because you only live once. And anyone that doubts your dreams and voice is not your friend and you're valid. And I hope to

continue inspiring and pushing others in the world with my work. Especially with many of the projects I have planned!
I love horror!! But I'm generally picky, If it has to be Rated R that's fine but I also really enjoy NOT Rated horror films. As I find those to be the scariest and I'm not easy to scare. I love the gore and some of my modeling specializes in darker aspects of creativity like bloody stuff and demonology..
Some common horror movies I enjoy are Rob Zombies House of a thousand corpses and his Halloween remakes, The saw series, Insidious, there are also some indie films I've seen and they were quite disturbing. My mother is a film Carnivore Or are the words Cinephile. So my movies spectrum is broad, I hate horror films like the ring and the last call, or Annabelle. Things like that don't scare me , but I remember a scene at the end of house of a thousand corpses , the end where Dr. Satan is operating on some victim or what ever, it was quite traumatizing at 12 so now it's a little chilling. Sometimes the more gore and violence the better. I also some enjoy some horror bands like psyclon nine and dawn of ashes with all the blood and satanic stuff as well as black out contacts.. pretty neat stuff.
There's also a movie called begotten, which you can search on YouTube on the deep end. It's a black and white horror film about God and such, it made my stomach turn in discomfort and confusion. Worth a watch.
Some of my favorite regular films are, Requiem for a Dream, Catch me if you can as well as The great Gatsby, inception and the psychological horror film Antiviral, another favorite and classic for me is interview w the vampire.

I live fetish and boudoir. I also take part in shibari shoots. Horror, bloody and demon shoots are also some of my most exciting and favorite shoots. For a contest we hung myself some what off a bridge from a shibari rig. And another I stood behind a very small space covered in plastic and blood for horror shoot, it was actually getting hard to breathe. Besides that I love the alternative styled boudoir like Suicide girls. It's exhilarating to feel sexy inside your skin, beautiful and like you run the show behind the camera.
I also just love shooting in general because I love to show the world that despite my scars I'm capable of anything I put my mind to and I am strong and beautiful. My experience with self harm and depression and self esteem do not define me and do not control my life. And my work shows this!
I LOVE SHOOTING Boudoir, outdoor boudoir and alternative style/fashion. Horror and fetish.
From what I've seen THE FILM about strong models. Working their way to the top. I've seen some of the fighting and films but I'm still learning, I have not seen chickfights or really watched wrestling, so this is my first experience with all of this and so far it's been cool to be apart of.

Well for the Film I was only hesitant because I was still learning about crediting and exposure and being cautious with who you work with. But after sitting on it for a while , doing a few magazines! I knew I was definitely in! I always think exposure is so important. It's how you get out there so I usually am not hesitant on any projects that sound beneficial for both parties. I love what I do so this sounded like a great project to

help me get out there in the modeling and film industry.
Always stand up for yourself, you know what you're capable of what makes you comfortable and what makes you happy. If something doesn't feel right trust your gut and always talk to others in the community to confirm about people you work with for your own safety.. besides that don't let the pressure of fitting in change what you want to do, you can be successful in anything you do as long as you consistently work at it and you're open to learning. Exposure is important even if you're not being paid, it's how you get noticed and also how you can actually get paid gigs or other amazing opportunities like travel or events!! Practice always practice even when you think you're excellent at posing and excellent and pulling out certain emotions behind the camera there's always something new to learn and always something to brush up on, who knows you might even find something you thought was easy but turned out to be really hard for you, challenge yourself. Only you know what success feels to you, do not let anyone tell you what is right for your life. Just don't be stubborn to advice.
Peace out - skarlett Demise
